

RACER'S CHOICE™

Air Induction Systems

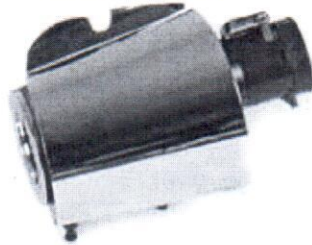

POWER by DESIGN™

Tools Required:

- Flat Head Screwdriver
- 10mm Socket/Wrench

Installation Instructions for 1996-2001 Ford Mustang Cobra & Bullit Part # 3496

Parts Included:

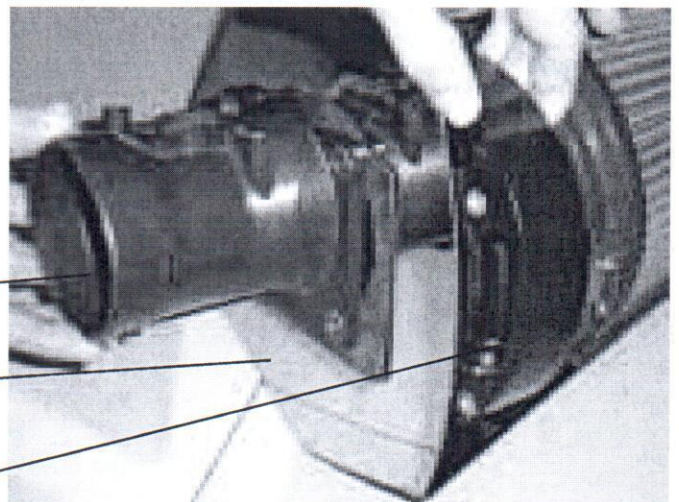

- 1- MAC Filter
- 1- MAC Velocity Adaptor
- 1- MAC Air Chamber
- 2- Support Posts

1. Start by disconnecting the wire harness from the MAF sensor.
2. Loosen the hose clamp on the stock air tube to the MAF meter.
3. Remove the bolt that holds the stock air box in place. You will also need to remove the rubber grommet that the bolt mounts through. Both will be reused with the MAC system.
4. Remove the stock air tube from the MAF meter and push aside.
5. Remove the stock air box, by pulling up on the unit.
6. Remove the two rubber grommets from the stock air box and reinstall them into the stock location.
7. Unbolt the MAF meter from the stock air box and set aside for reuse with your MAC system.
8. Install the two support posts on to the MAC air chamber.
9. Install the MAF meter to the MAC velocity adaptor by mounting it through the MAC air chamber using the hardware provided as shown in the picture.
10. Install the MAC filter onto the velocity adaptor and tighten. Note: Do Not over tighten the hose clamp on the filter.
11. Install the MAC unit into the stock location.
12. Install the rubber grommet onto the MAC air chamber and using the stock bolt mount it in the stock location.
13. Reconnect the stock air tube to the MAF meter and tighten the hose clamp.
14. Reconnect the wire harness to the MAF sensor.
15. Check to be sure that every thing tightened.
16. You are Finished!
